

Company Profile

About BG Con

Bondoc Geotechnical Engineering Consultancy (BG Con) is a Philippine geotechnical consultancy firm, a legally registered entity that provides advanced solutions and recommendations for challenging soil/rock foundation conditions. BG Con boasts 11+ years of both local and international experience in various geotechnical engineering related works.

Vision

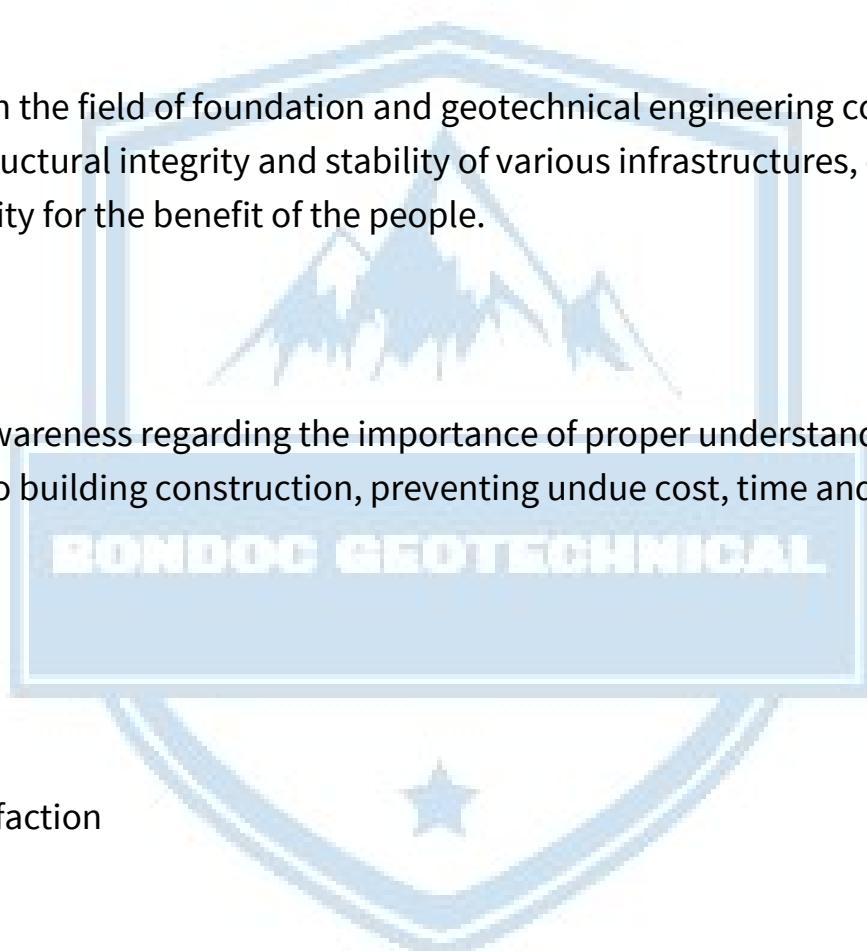

To be the leader in the field of foundation and geotechnical engineering consultancy, aiming to improve the structural integrity and stability of various infrastructures, ensuring their safety and longevity for the benefit of the people.

Mission

To increase the awareness regarding the importance of proper understanding of ground conditions prior to building construction, preventing undue cost, time and safety risks.
